Revvin' 4 Research supports the Breast Cancer Research Foundation of Alabama, a nonprofit organization supporting innovative research to help diagnose, treat, prevent and eradicate the disease. Since its inception in 1996, the BCRFA has contributed over \$10 million to fund research at the O'Neal Comprehensive Cancer Center at UAB and their collaborative partners. Revvin' 4 Research has raised over \$185,000 for research since 2009. All funds raised stay here in the state of Alabama, but the research has a global, life-saving impact.
